**Remarks**

Claims 1 to 30 are in the application. Claims 1 to 30 have been made the subject of a restriction requirement. Applicants have amended Claims 15 and 24, in hopes of bringing the claims into conformance with the specification. Claim 28 is cancelled without prejudice or disclaimer of the subject matter therein. Claims 1-14, 20-23, 29 and 30, are withdrawn without prejudice or disclaimer of the subject matter therein as they are directed to non-elected inventions.

The Examiner noted an inconsistency between SEQ ID NO:15, 17, 19, 20, and 21 in the sequence listing submitted August 26, 2005 and the SEQ ID NOs: 15, 17, 19, 21, and 22 disclosed in the specification at pages 78-82, 83, and 94 and claims as filed. The Applicants are submitting a corrected sequence listing with SEQ ID NOs that are consistent with the specification and that also includes new SEQ ID NOs 22-62, for other sequences found within the specification as filed. In addition, the "Amendment to the Specification" section above incorporates the new SEQ ID NOs into the specification.

**Restriction Requirement Under 35 U.S.C. § 121**

Without traversal and in the interest of advancing the prosecution of this case, Applicants wish to make a provisional election of Group 6, claims 15-19 and 24-28, as suggested by the Examiner. Claim 28 is cancelled.

The Applicants reserve the right to prosecute, in one or more patent applications, the canceled claims, the claims to non-elected inventions, the claims as originally filed, and any other claims supported by the specification. If it would expedite prosecution of this application, the Examiner is invited to confer with the Applicants' undersigned attorney. If any additional fees or charges are required by this paper the Commissioner is hereby authorized to charge Deposit account 19-2570 accordingly.

Respectfully submitted,
